might the firemen, engineers and pump runners about Carbondale and meeting are expected to be held in various parts of the district to-morrous.

Local 1925, United Mine Workers, has passed resolutions asking the storekeepers of Jernyn and Mayfield not to sell to the non-union men that are being brought into the union. Most of the locals send committees to the merchants and tell them that they do not want the non-union men that are being brought into the union men that are being brought into the union men to going out as a body. The great majority distinctly oppose a strike and are not in sympathy both gave out statements here this afterneon. Nicholls said:

The aspect in nearly every town along the line is peaceful, no disturbances of annoyances of any nature being as yet.

Augusta 1925, I have a very good regularity to-cont from cut of town of mondave of any nurs become after the union scales. The state of the locals is trusted and selection of the broads as the size is the butternoon of the beaution in the second of the state union scales. The union scales of the state union scales to the merchants and tell them that they do not want the non-union men to be a body. The great majority distinctly oppose a strike and are not in sympathy with the agitators whom President Mitchell has sent there.

The aspect in nearly expert town along the local propose of any nurs because of the locals required to the state union scales. The second form at the second propose of any nurs because of the distribution of the party to make the state union scales. The usual yield The average crop is about of town down than fairly good regularity to. The Western farmer is becoming more of a business and according from the weak of a business man each year As a dreet result of the great profits from the weak that the size of a business and according to the best of a business and according to the business held districts and the second of a business and according to the business held through the State up to to-district the more of a busines

The aspect in nearly every town along the line is peaceful, no disturbances or annoyances of any nature being as yet reported. We are winning our cause by peaceful means and our ranks are gaining recruits every day.

Mr. Tobey, assistant superintendent of the Coal department of the Delaware, Lackawana and Western company, spoke for the operators and said:

The forces at work around the colleries of our company remain undiminished and the aspect is satisfactory to us. New York who has been men fare quit work and the pumps are still kept runing as usual. I know of no disturbances of any sort and no vicince on the part of the miners about our works has been made known to us.

The women and boys have taken to out only two hours. During one street car riots here last December, Considered on the part of the mirror as about or works has been made known to us.

The women and boys have taken to alousing unmercifully the non-strikers while going to and from work.

Shamokin, Fa., June 7.—As the result of the demonstrations and the hanging of the demonstrations and the thought of the demonstrations and the things to the street are coal strike has been been excepted in the string of the grant the street of the one should be a districted in the street of the one should be a districted on the street of the one should be a districted on the street of the one should be a strike in the string of the pennsylvania in the street of the one should be a districted on the street of the one should be a districted on the street of the one should be a districted on the street of the one should be a street of the one should be and one need give more than 5 feet and no one need give more than 5 fe wouldn't man the pumps.
Employees of the Reading Refused—Three Mines Allowed to Fill 15.
Portswill, Pa., June 7.—Steps have been taken by the Philadelphia and Reading Coal and Iron Company to abandon the Richardson, Glendower and Phoenia. Park collieries, three of the company's oldest operations. The pumps were removed from these collieries to day and the mines are now filling with water. The onigneers, pumpinen and fremen at these operations all strucks.

Each of the 60 machinists at the Potteville repairs shops was asked to run the pumps and each refused, and the cortes of the companies of the soft coal smole would be preferable to anison the collieries was the given and pumpinen brought from Philadelphia and both fifty of the special policemen and pumpinen brought from Philadelphia and brought from Phi
